

2020 - 2021 Sponsor Acknowledgement Form  
Undergraduate Student Project

*This Sponsor Acknowledgement Form is required for each project involving external sponsors. It is to be completed after the faculty departmental contact and the Sponsor have defined the essential details of the project.*

Department, course number(s) and faculty contact:

Diane Royer Senior Design (491)

Project title and brief description and semester(s) will be active - attach additional description page as necessary:

Secure Interactive Headset - headset for use with secure teaming. Active Semesters - 2020-2021 Fall Spr

Project Sponsor information:

- organization name and address: Cornerstone Strategies, LLC PO Box 104 Chariton IA 50049
- name and title of project coordinator: Rachel R. Watkins Schoenig CEO
- email and phone: rachel@cornerstonestrategies.org (563) 240-6263

Thank you for your interest in supporting a student project in connection with a course at Iowa State University. These courses are designed to provide our students with real-world experience in their chosen discipline. In return for your support of and participation in this student project, the University will provide you with a copy of the project results, including as appropriate, any data, analysis, hardware and/or software (referred to as student project results) provided you complete and sign this form.

1A. Please understand that this undergraduate course is educational in nature and intended to facilitate student learning and students may make mistakes as a natural, expected, and appropriate aspect of the educational process. Therefore, student project results are provided "AS IS" WITHOUT ANY REPRESENTATION OR WARRANTIES WHATSOEVER, WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT NECESSARILY LIMITED TO ANY WARRANTY AS TO FITNESS FOR PARTICULAR PURPOSES, MERCHANTABILITY OR NON-INFRINGEMENT. All student projects are performed by University students and are not subject to peer review or independent verification of results. You hereby agree to hold harmless the University, the State of Iowa, the Board of Regents of the State of Iowa and their agents, employees, students and volunteers for any and all harm, loss, liability, claims or damages which may arise from your use of the student project results in whatever manner or form.

1B. For purposes of this agreement, there shall be no export controlled information disclosed by any party. Further, it is understood that foreign nationals may be part of the student group working on this project.

Please check the box below:

I agree.

2. While it is the University's preference that sponsors make a reasonable effort to avoid the inclusion of confidential information into a student project which takes place in an open and collaborative academic learning environment, it is understood that there may be situations where a Sponsor wants to share information that is to be held in confidence. It is the responsibility of the sponsor to determine if any confidential information will be involved in this project and to sign a separate confidentiality form (Non-Disclosure Agreement) if this is the case.

Please check the appropriate box below:

I WILL NOT be sharing any confidential information during this project and will not need to sign a confidentiality agreement.

I WILL be sharing confidential information during this project and have signed a separate confidentiality agreement.

3. While the University encourages sponsors to permit student participants to retain their intellectual property rights related to the project, it is understood that there may be situations where the Sponsor wants to obtain ownership rights from participants.

Please check the appropriate box below to indicate how you desire to proceed regarding this issue:

Student/University Retains IP - Student project results provided shall be used solely for your internal review and analysis. Any and all rights to the student project results, including all intellectual property rights, if any, shall remain the rights of the individual student participants as appropriate under the law regarding rights to and ownership of intellectual property unless there is a separate written agreement addressing the ownership of intellectual property. Prior to any commercial use or subsequent transfer of any student project results, you must obtain the appropriate rights from the respective owners.

Sponsor Retains IP - I desire to obtain ownership rights from the participants and I have signed the Special Intellectual Property Agreement Form that clarifies the ownership of the intellectual property.

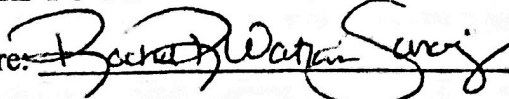

4. The student project results are not the work of the University and any references either internally or to third parties shall clearly identify the source of the student project results as an undergraduate student project performed at the University without subsequent independent evaluation.

5. A facsimile or scan of any original signature transmitted by one party to the other party is effective as if the original was sent to the other party.

Please check the box below:

I agree.

I AGREE TO THE ABOVE TERMS AS CHECKED IN THIS DOCUMENT:

Signature:  Date: 9/1/2020

**2020 - 2021 Special Intellectual Property Agreement Form  
for use by Students when assigning Intellectual Property to Sponsor**

I understand that my rights and responsibilities regarding intellectual property I create as an undergraduate student at Iowa State University include the following:

**General Rule.** Any intellectual property created by undergraduate students at Iowa State University including copyrights (such as original homework assignments, papers, artwork and theses authored/created by the student) and patent rights (such as, inventions, discoveries, creations and new technologies conceived or first reduced to practice by the student) as a work product of a course (including, laboratory experiments, special and independent study projects) will be owned by the undergraduate student. The University does not claim ownership of such intellectual property, but does have the right to use the intellectual property internally for the educational mission of the University.

**Special Situations.** Situations may occur in certain courses where students are presented with the opportunity to participate in projects or activities in which the ownership of any resulting intellectual property must be assigned either to the University or to a sponsoring entity (such as a company) as a condition of the student's participation. Students are never obligated to participate in activities that require the assignment of the student's intellectual property to the University or to another entity. In these situations students will always be presented with an option of an alternative activity to participate in that does not require the student to assign their intellectual property to another entity.

**Assignment of Rights.**

I agree as a condition of my participation in \_\_\_\_\_, in  
[Course number]

Interactive Sewer Headset, to  
[Identification of project/activity requiring assignment of intellectual property]

assign, and do hereby assign, to Cornerstone Strategies, LLC  
[entity name, hereafter referred to as Sponsor]

all intellectual property rights (including, but not limited to, copyright and patent rights) that I may acquire in copyrightable and/or patentable documents, inventions, or discoveries that are created, authored, conceived or first actually reduced to practice by me as a result of my participation in this course. I agree to inform Sponsor of any intellectual property that I may develop and to cooperate with Sponsor, at Sponsor's expense, to obtain a patent and/or register a copyright as the case may be regarding my intellectual property.

**Right to Receive Royalties.** I understand that if I assign my intellectual property rights to Sponsor, then Sponsor will manage the intellectual property and shall be solely responsible for patenting and commercialization of the intellectual property. Sponsor shall have the sole right and responsibility to determine the extent of United States and foreign patent prosecution, maintenance, enforcement and defense relating to the intellectual property.

I understand that if I assign my intellectual property rights to Sponsor, then I will not receive any financial benefit, licensing or patenting assistance, or other financial compensation from the University for that Intellectual Property. Any financial benefit would have to be agreed to in a separate agreement with Sponsor.

**Cooperation with Patenting Process.** I agree to make myself available to patent attorneys, to sign all papers, take all rightful oaths, and perform all acts which may be necessary for fulfilling this assignment and for securing and maintaining patents to the intellectual property in any and all countries and for vesting title thereto in Sponsor. The Sponsor understands that, since I am an inventor, I will be included as an inventor in any resulting patent sought by the Sponsor. I understand that my responsibilities to cooperate in the patenting process under this agreement will continue after completion of the course and possibly even after graduation from the University.

This agreement is effective upon latest date of signature. A facsimile or scan of any original signature transmitted by one party to the other party is effective as if the original was sent to the other party.

**2020 - 2021 Non-Disclosure Agreement  
for Confidential Information in Student Projects**

Department, course number(s) and faculty contact:

Diane Royer Senior Design (491)

Project title and brief description (that reasonably limits scope) and semester(s) will be active -  
attach additional description page as necessary:

Interactive Secure Hacked (for secure testing) Fall - Spring 2020 - 2021

Project Sponsor information:

NateKAnders

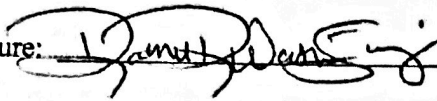

- organization name and address: Cornerstone Strategies, LLC
- name and title of project coordinator: Rachel R. Watkins Schoenig, CEO
- email and phone: rachel@cornerstonestrategies.org (563)240-6263

1. There are three parties to this agreement: the project Sponsor, Iowa State University (including the Faculty Instructor and Faculty Project Mentor) and the individual Student Participants. Their names and signatures are listed at the end of the document.
2. The Sponsor agrees to clearly identify in writing, any material, knowledge or information that is requested to be treated as confidential or involves trade secrets (the "Confidential Information").
3. However, Confidential Information does not include material, knowledge or information provided by Sponsor when it can be established by competent evidence that such information:
  - Was already known by the ISU Student Participant or Faculty Instructor/Mentor at the time of disclosing.
  - Was publicly available at the time of disclosing.
  - Was independently developed by the ISU Student Participant or Faculty Instructor/Mentor without use of the Confidential Information.
  - Became available to public after disclosure by means other than acts or omissions of the ISU Student Participant or Faculty Instructor/Mentor in violation of this agreement.
  - Was lawfully disclosed by a party not in collaboration with the Sponsor subsequent to time of disclosure.
  - Was approved for disclosure by prior written permission of Sponsor.

4. The Student Participants and the Faculty Instructor/Mentor agree to exercise reasonable care to prevent the disclosure of the Confidential Information to any third party and to only use this information for the educational purpose for which it is shared.
5. All parties understand that the Confidential Information is being used as part of a project in an ISU course. Therefore, it is agreed that the Student Participants and Faculty Instructor/Mentor in the course may make use of the Confidential Information for the limited purposes of working on the designated course project. As part of the class requirements the Student Participants may be required to give presentations about their project to the other students in the class. Some presentations may be open to other faculty and students and, in some situations, even the public. All presentations shall be subject to prior review by Sponsor. The Sponsor may designate a specific item of the Confidential Information that cannot be included in any presentation. Another option would be for the Sponsor to request in writing that the presentation be given to a very limited audience. In either case the Sponsor must realize that the presentation must not be edited beyond the point of being understood.
6. This project is not intended to be a hidden experience for the Student Participants, therefore the Student Participants will be allowed to mention the project by name during job interviews or on resumes, with the understanding they cannot disclose any of the specific Confidential Information.
7. This project, as with all course work, may be used as example course work during events such as College accreditation review. If there is any concern about it being used in this context (and other similar educational settings in which examples of student work are displayed) the Sponsor may request in writing to preview any project summary before it is released for such use and Sponsor shall promptly be awarded a review opportunity before any such disclosure and communicate the results of the review to ISU before any such disclosure.
8. Other than identified above, the University, Faculty Instructor/Mentor and the Student Participants agree to not disclose the Confidential Information beginning with the date this agreement is signed by the student participants and ending three years after the official last day of the appropriate academic semester.
9. This agreement may be terminated by any party by giving thirty days written notice to the other parties. Upon termination or expiration, all Confidential Information shall remain the property of the Sponsor and shall be returned or destroyed promptly. The obligation of confidentiality shall survive termination or expiration of this Agreement.
10. All parties must comply with all applicable U.S. export control laws and regulations. For purposes of this agreement, there shall be no export controlled information disclosed by any party. Further, it is understood that foreign nationals may be part of the student group working on this project.
11. This agreement may not be modified or assigned, except by further written agreement executed by an authorized official of each party.
12. By the signature below of officials authorized to commit the parties to this agreement, Sponsor, Iowa State University, the Faculty Instructor/Mentor and Student Participants agree to all the above terms and conditions, as of the effective date given below. A facsimile or scan of any original signature transmitted by one party to the other party is effective as if the original was sent to the other party.
